TWO *New* IVIES

The Finest New Plants of the Year

Few people are acquainted with the years of untiring work of Mr. Sylvan Hahn of Pittsburgh in endeavoring to produce new and improved forms of Ivy that will thrive under conditions in the home. Since introducing the Hahn's Self Branching and Hahn's Miniature Self Branching types a number of years ago Mr. Hahn has devoted years of effort in developing new Ivies that are superior to these two. We have watched this work with great interest, realizing the importance of the Ivy in the decoration of the American home. Now offered for the first time are Sylvanian Beauty and Maple Queen — the finest Ivies ever produced. No illustration or description can even begin to convey the beauty of these two new varieties. Both are so distinctly superior to the varieties being grown today as to make them really beyond comparison. In our estimation, Sylvanian Beauty and Maple Queen are the finest new plants introduced in years and will create sensational interest when offered to the American public. You will want to be the first in your locality to offer these new plants to your trade. See illustrations and descriptions on the following pages.

SYLVANIAN BEAUTY

Plant Patent Applied For. Propagation Rights Reserved.

If ever an Ivy is produced that is more beautiful than Sylvanian Beauty it will be worth its weight in gold. No words can describe the beauty of this plant. Sylvanian Beauty branches profusely thus forming a dense mat of foliage. The older leaves are large and dark green—the younger leaves are lighter in color, forming a very pleasing contrast and appearance. Both Sylvanian Beauty and Maple Queen are practically immune to leaf spot which is a very essential characteristic in the growing of a good Ivy plant. Your customers will marvel at the beauty and vigor of this most outstanding new plant.

2 1/4" POT PLANTS

\$15.00 per 100, \$125.00 per 1000

MAPLE QUEEN

Plant Patent Applied For. Propagation Rights Reserved.

Maple Queen literally branches at every leaf node forming the most dense and compact plant imaginable. The leaves are of medium size and very closely spaced. A uniform deep green color is carried throughout the entire plant. The leaf veins standing out very prominently. The illustration above does not adequately show the free branching character of this beautiful variety. It is practically immune to leaf spot. Maple Queen will undoubtedly replace all other forms of branching Ivies because of its beauty, freedom from disease and general all around ability to thrive under the trying conditions in the modern home.

ROOTED CUTTINGS

VINES

The Leaders for Home Decoration

MERION BEAUTY

NEW SELF-BRANCHING IVY

This variety has made a tremendous hit with the trade and buying public. Just the thing for miniature gardens, bowls, etc. Every grower should have this variety. Smaller leaves than Hahn's variety and branches at every joint.

2¼ inch pots, \$1.20 per 12; \$8.00 per 100.

SELF-BRANCHING IVY—(HAHN'S VARIETY)

We consider this new Ivy the best variety yet produced. It is rapidly replacing all other Ivies for indoor growing. The plants are self branching and need only a small pinch now and then in order to make beautiful specimens. By all means, try this outstanding new plant.

2¼ inch pots, \$0.85 per 12; \$6.00 per 100.

NEW HEART LEAVED IVY

A new Ivy that is bound to become very popular when it is better known. Medium sized distinctly heart shaped leaves. Stock is very scarce.

2¼ inch pots, \$1.50 per 12; \$10.00 per 100.

VARIEGATED ENGLISH IVY

A new introduction that is fast becoming popular. Every florist using English Ivy will be handling this new type. It is decidedly worthwhile.

2¼ inch pots, \$1.00 per 12; \$7.00 per 100.

HARDY ENGLISH IVY

Evergreen with dark, glossy, green leaves.

2¼ inch pots, \$0.75 per 12; \$5.00 per 100.

Self-Branching Ivy—Hahn's Variety

PHILODENDRON CORDATUM

Florists have found an unusually large demand for this valuable trailing vine and it can be merchandised with the assurance of giving utmost satisfaction with a minimum of care.

2¼ inch pots, \$1.00 per 12; \$7.00 per 100.

POTHOS WILCOXI

This beautiful climbing vine has become deservedly popular because of its adaptability to the unnatural conditions of the average home. It is particularly suitable for sun-parlor decoration and grows equally satisfactorily in any part of the home, even in comparatively dark situations.

2¼ inch pots, \$1.00 per 12; \$7.00 per 100.

VITIS RHOMBIFOLIA (Grape Ivy)

A graceful trailing vine with dark glossy green leaves. An excellent vine for house culture.

2¼ inch pots, \$1.20 per 12; \$8.00 per 100.

No plant orders filled at these prices for less than six of a variety, except as noted. Less than 25 of a kind filled at dozen rates. 25 to 200 of a variety at hundred rates. Over 200 of a variety at thousand rates, where thousand rates are given.

PLANTS FOR MINIATURE GARDENS

Succulents and Allied Subjects

The demand for plants suitable for miniature garden work is steadily on the increase. Every florist should offer these unusual plants to his trade—they will pay him handsome returns. Succulents are here to stay because of their wonderful lasting qualities and we have found them to be the best plants for house culture. This list covers a most complete line of plants that are suitable for use either in miniature gardens or as individual pot plants. We call your attention to the special collections which are reasonable in price and include the best selling items.

CHINESE EVERGREEN (Aglaonema Modestum)

The most satisfactory of all plants for
indoor growing

We are fortunate in having an excellent stock of this very outstanding plant. For dependability, no plant can compare with Chinese Evergreen for the home. In the past several years, it has increased in popularity to the point where it is now the most popular plant in most sections for use in fancy pottery and ornaments.

FERNS

NEPHROLEPIS VARIETIES

Per 12	Per 100	Per 1000
\$1.00	\$6.50	\$60.00

BOSTONIENSIS ("The Boston Fern")—A variety that needs no description. Still the most popular of all varieties.

DWARF BOSTON—The most popular of present day ferns. A dwarf type of the popular Boston variety.

ROOSEVELT—The pinnae are beautifully undulated giving the Roosevelt a pronounced wavy effect seen in no other Fern; as the plant ages this effect becomes quite distinct. Our sales of Roosevelt have exceeded two hundred and fifty thousand plants

SPARROWII—It has dark green foliage which, with its beautiful crested fronds, makes it a most unique, distinct and desirable fern.

TEDDY JUNIOR (The Fern for Every Household)—The fronds are broad and beautifully tapered from base to tip; they droop just enough to make a shapely, graceful plant, permitting it to finish with a fine full center and perfect symmetrical spread. The pinnae are distinctly undulated, giving the fronds an attractive wavy appearance, which adds materially to their charming decorative effects. "Teddy Junior" will produce about four times more fronds than any other Fern ever introduced, finishing with fifty to sixty fronds in a four-inch pot.

VERONA—A handsome variety somewhat resembling Whitmanii but with finer ostrich plume foliage and with a stiffer midrib which makes the fronds stand up better.

WHITMANII COMPACTA ("The Parlor Fern")—This is a condensed form of the "Ostrich Plume" Fern, with valuable characteristics added which are not evident in the parent—the pinnae subdividing, making miniature fronds which are super-imposed on the main fronds, looking as if two or more were condensed in one. Graceful beyond description.

NEW FERN TREVILLIAN

The most beautiful fern sent out in years. It has proven itself much truer to form than other ferns of this type. It is an improvement on Whitmanii, as hardy and sturdy as the Boston, a faster grower than any other fern and makes a better formed plant.

MOSS FERN

(*Selaginella Emiliana*.) An upright growing moss with delicate lace-like foliage. Suitable for fern dishes or for tables and house decoration. Per doz., \$0.85; Per 100, \$6.00.

CHOICE HARDY FERNS

\$1.50 per 12; \$10.00 per 100

Suitable positions for Hardy Ferns are to be found in almost every garden. With few exceptions they do best in a shady or semi-shady position and in rich well-drained soil. They must be supplied with water during dry weather. Where the soil is stiff or clayey, incorporate a liberal quantity of leafmold, peat or other loose material to make it friable.

CHRISTMAS FERN (*Aspidium Acrostichoides*) — 15 inches. An evergreen fern, best in shady location. Deep green fronds. Excellent for the rock garden.

OSTRICH FERN (*Onoclea Struthiopteris*)—3½ feet. Very stately, likes partial shade and moisture. A very handsome plant — graceful like a palm.

INTERRUPTED FERN (*Osmunda Claytoniana*)—A large fern growing in a crown 2 to 3 feet high, 8 inches broad, and clothed with rusty wool when young. One of the best.

SPINULOSE WOOD FERN (*Aspidium Spinulosum*)—18 inches. An evergreen fern with handsome and finely dissected fronds. Requires a rich moist location. A splendid fern for rockeries.

LANTANAS

Although we have been increasing our production of Lantanas in the past several years, the demand has constantly exceeded the supply. For the coming season we have one hundred and fifty thousand plants in prime condition. Every florist can handle this plant on a profitable basis—both as a blooming pot plant and as a bedding subject. For general spring sales, shift the plants into 3 or 4 inch pots. We have added several new varieties this year that are very outstanding.

DWARF WHITE (New)—Dwarf. Pure white.
SENSATION (New)—Medium dwarf. Lavender and yellow.
DWARF BEAUTY (New)—Dwarf. Orange bronze.

GYPOSPHILA BRISTOL FAIRY

The Best Double Flowering Baby's Breath

In Bristol Fairy we have a wonderful advance over all other types. The flowers are perfectly double, pure snow white and two to three times the size of Gypsophila paniculata flore plena. Bristol Fairy blooms early and continues to throw up flowers from the base bearing the fine sprays from June until killing frost. The dried flowers retain their pearly whiteness throughout the winter so that they can be depended upon to lighten the stiffness and formality of winter bouquets. Both sizes will flower the first year.

NEW CARNATION

IMPROVED CRIMSON KING

The Finest Hardy Everblooming Carnation Yet Introduced

The Truest Hardy Outdoor Carnation. A beautiful strain of hardy pink, which resembles most of all the indoor Carnation, blooming in great abundance all summer, flowers full double and of brilliant crimson color. Excellent for cutting, very hardy and extremely fragrant.

This new introduction is, we believe, of great value to the trade not only as a cut-flower but as well for garden show and particularly in connection with rock garden planting. Rock Gardens are of great interest today and here is a plant that will surely please your clients. Both sizes we offer will bloom profusely the first year.

America's Finest Peonies

For over a quarter of a century we have specialized in the growing of Peonies, the most popular of the hardy perennials. At the present time, G. & R. Poeny plantings cover fifty acres in our nurseries—the largest plantings of their kind in the world devoted exclusively to root production.

SIZE OF ROOTS. At the prices quoted, 3 to 5 eye divisions with well balanced roots will be supplied. Prices on undivided field clumps will be supplied on request.

Giant Flowering Amaryllis

These selected hybrids are gigantic in size and exquisite in colorings. The colors range from white with thin markings of carmine, various shades of pink, to deep scarlet. Some are pure in color, others have beautiful markings and mottled throats.

\$4.00 per 12; \$30.00 per 100.

AMARYLLIS HALLI (Lycoris)—HARDY AMARYLLIS

Produces in early spring attractive green foliage which grows until July when it ripens and disappears. About a month later, as if by magic, the flower stalks spring from the ground to a height of 2 to 3 feet, developing an umbel of large, lily-shaped flowers, 8 to 12 in number, of a delicate lilac-pink shade. The bulb is perfectly hardy.

\$0.65 each, \$6.50 per 12.

TWO NEW SHRUBS

KOLKWITZIA AMABILIS THE BEAUTY BUSH

One of the newest, rarest and most beautiful of new Shrubs introduced by the Arnold Arboretum. Closely allied to the Abelia—perfectly hardy. Ultimately reaches 6 feet in height and 5 feet through, and produces its Abelia-like flowers in great profusion.

2¼ inch pots, \$5.00 per hundred; \$45.00 per thousand.

NEW RED-LEAVED JAPANESE BARBERRY

We are preparing a large stock of this popular new Shrub for Fall and Spring shipment, and anticipate a supply of fifty thousand excellent plants from 2¼-inch pots. Grown from Cuttings—100% true to type. Immeasurably Superior to Seedlings.

2¼ inch pots, \$5.00 per hundred; \$45.00 per thousand.

Outstanding Ground Covers

EUONYMOUS RADICANS COLORATA

Being entirely evergreen, this plant is very attractive at all seasons. In winter, the foliage turns to a bronze red. This Euonymous is a very rapid grower, rooting at every joint, and this gives a uniform, even effect.

2¼ inch pots, \$1.50 per 12; \$10.00 per 100; \$85.00 per 1000.

PACHYSANDRA TERMINALS

We are now growing this popular and useful plant in large quantities. Well branched plants.

2¼ inch pots, \$1.00 per 12; \$7.00 per 100; \$65.00 per 1000.

VINCA MINOR (Grave Myrtle)

PROBABLY THE BEST KNOWN GROUND COVER PLANT.

Field Clumps, \$1.00 per 12; \$6.00 per 100; \$50.00 per 1000.

GERMAN IRIS
